

**Khmelnytskyi National University**

# ABOUT US

Khmelnytskyi National University (KhNU) is a leading higher education institution  
in Khmelnytskyi oblast

KhNU is a pioneer of the first distance learning programs in Ukraine starting from 2001

## Degrees

Bachelor

Master

Doctor of Philosophy

Doctor of Sciences

6500 students  
50 – foreign students

## Education programs

24 fields of study

44 specialities

144 degree programs

539 lecturers:

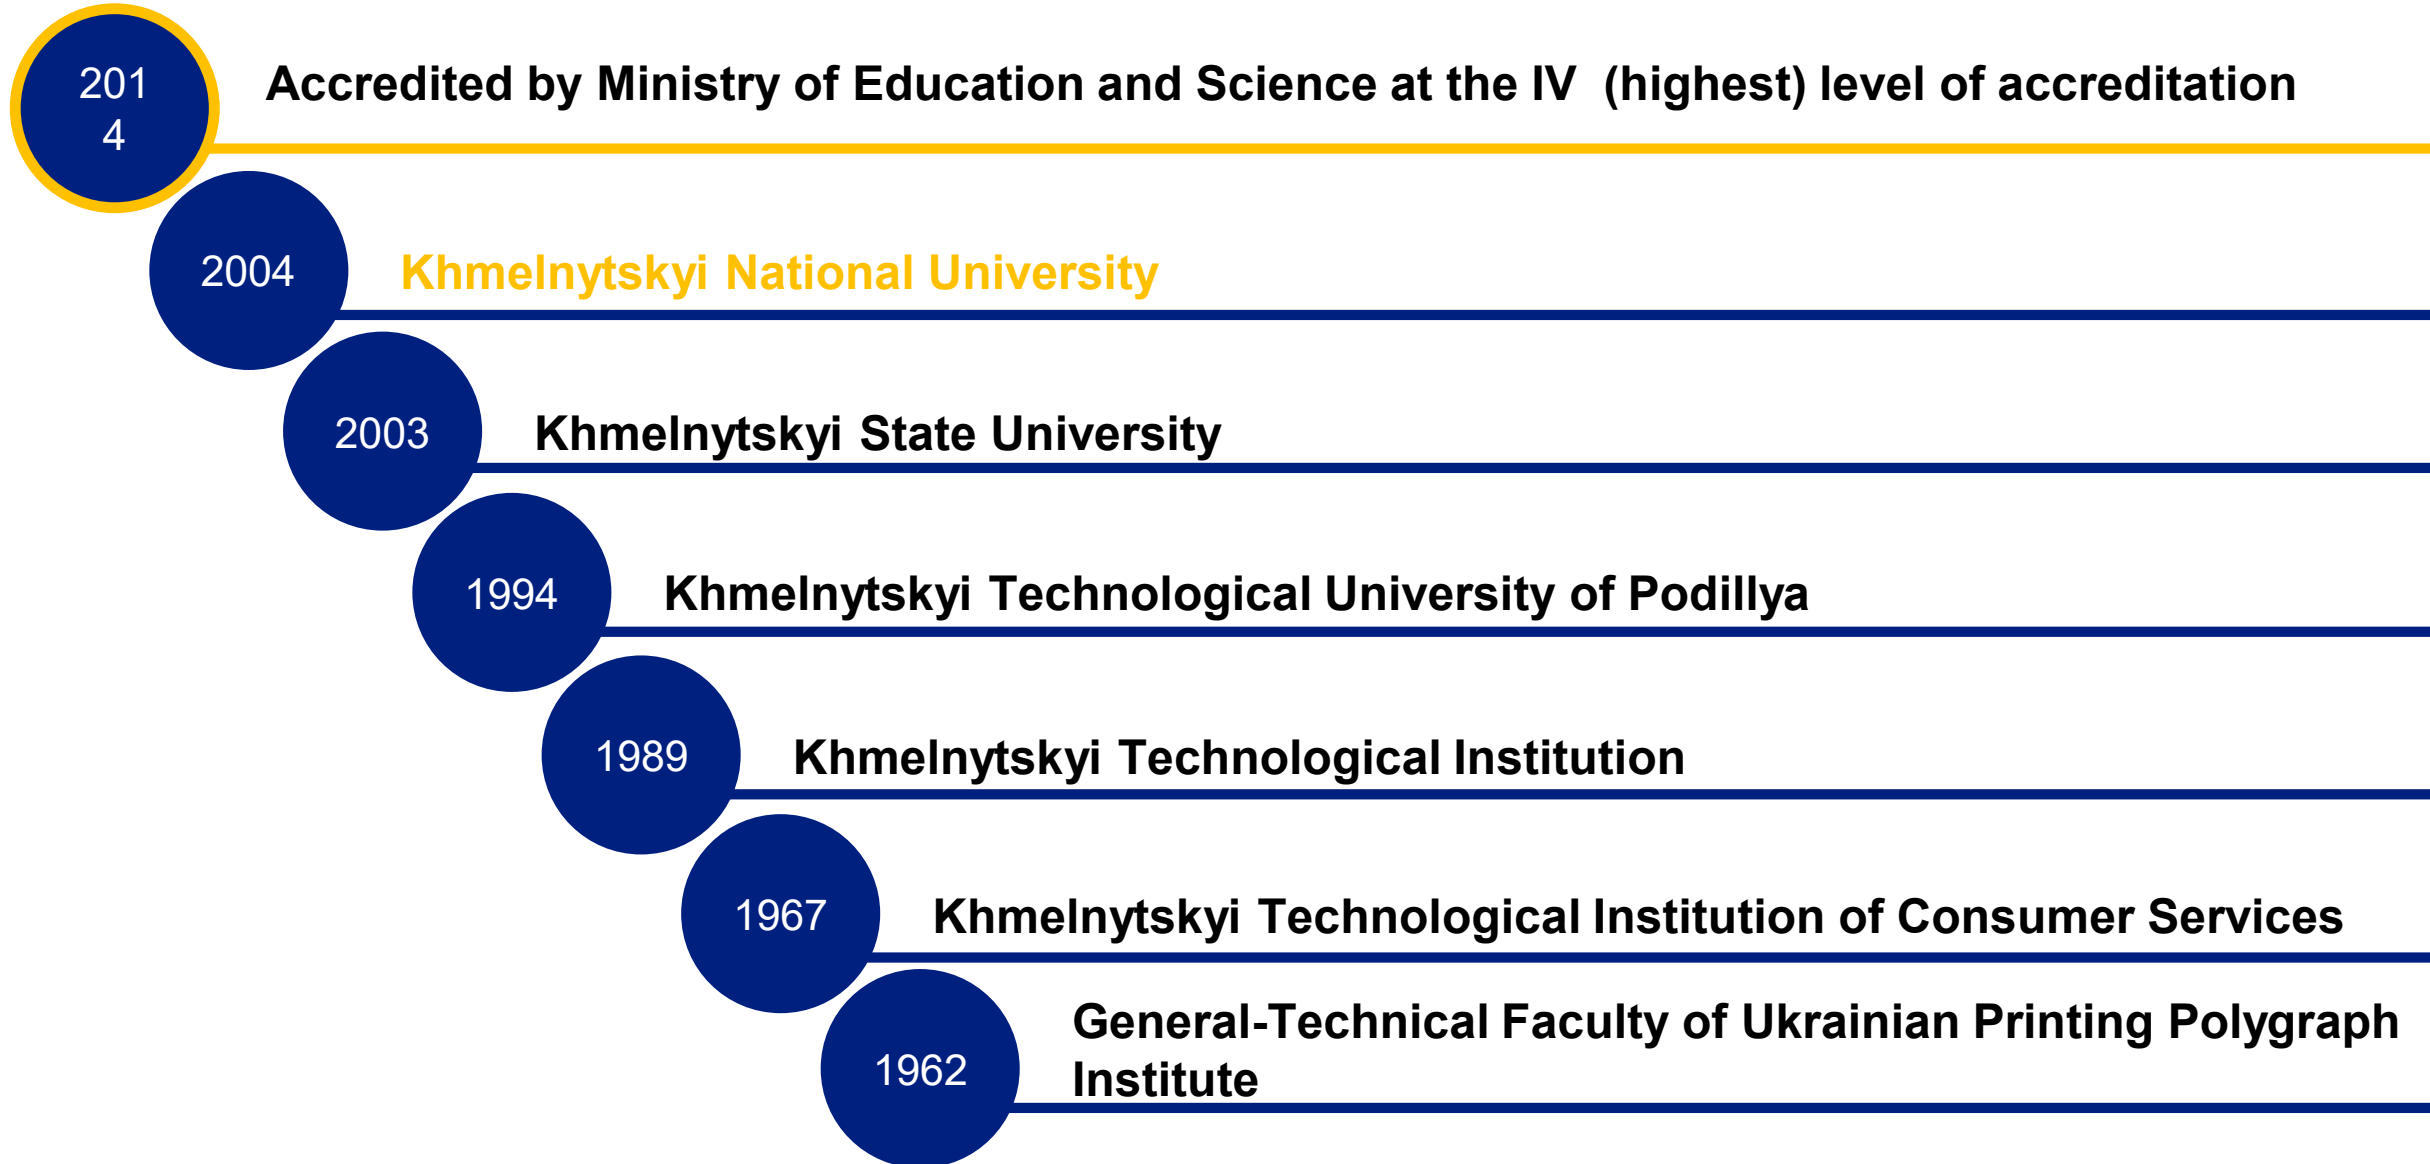

- 95 doctors of sciences,  
professors

- 374 candidates of  
sciences, associate  
professors

# THE HISTORY AND CURRENT DEVELOPMENT

# Faculty of International Relations and Law

## Specialisms

Secondary Education. Language and Literature (English)

Philology. German Languages and Literatures

Philology. Applied Linguistics

Politology

Law

International Relations, Public Relations and Regional Studies

International Economic Relations

# Faculty of International Relations and Law

## Faculty Laboratories

### Laboratory for modelling international logistics systems

KhNU received an educational license for FlexSim software for 20 workplaces from the Polish “Intermarium” Foundation and became **the 4th Ukrainian university** to use this product.

When applying this software product, students of International Economic Relations, International Logistics and Customs can create working simulations of objects and processes and use them as a tool for effective decision-making.

## Faculty Laboratories

### Sociological Laboratory

The Laboratory offers:

- a full cycle of quantitative and qualitative sociological and socio-psychological research;
- public opinion monitoring;
- research of socio-political attitudes and orientations of the population;
- political and electoral research.

# Faculty of International Relations and Law

## Law Clinic

- provides students with opportunities to train practical skills in the field of specialization;
- is a place for students internships;
- provides free legal assistance to vulnerable groups;
- educates general public on law;
- is a place for students to learn about the practices of court system and law enforcement agencies.

Graphic Design Student

# Faculty of Technology and Design

## Specialisms

- ✓ Design
- ✓ Chemistry
- ✓ Chemical Technology and Engineering
- ✓ Light Industry Technologies

## Faculty Laboratories

### Laboratory for Design "Photo Space"

The Laboratory offers:

- design, development and production of experimental samples (clothing, accessories, site pages);
- implementation of practical results of scientific and scientific-educational projects in the fields of design and creative industries in the educational process;
- introduction, production and sale of research, industrial, innovative products made by our own technologies (clothing, accessories, shoes);
- conducting courses, trainings, workshops.

# Faculty of Technology and Design

## Faculty Laboratories

### Educational and Scientific Laboratory "Technologies and Fashion"

A research laboratory "Technology and Fashion" was opened with the assistance of the Chinese company "JACK", one of the largest manufacturers of sewing machines in the world, and its official representative in Ukraine - the company "SOFTORG".

Students can perform technological operations for the manufacture of products using modern high-tech sewing equipment of the company.

# Faculty of Engineering Transport and Architecture

KERNEL

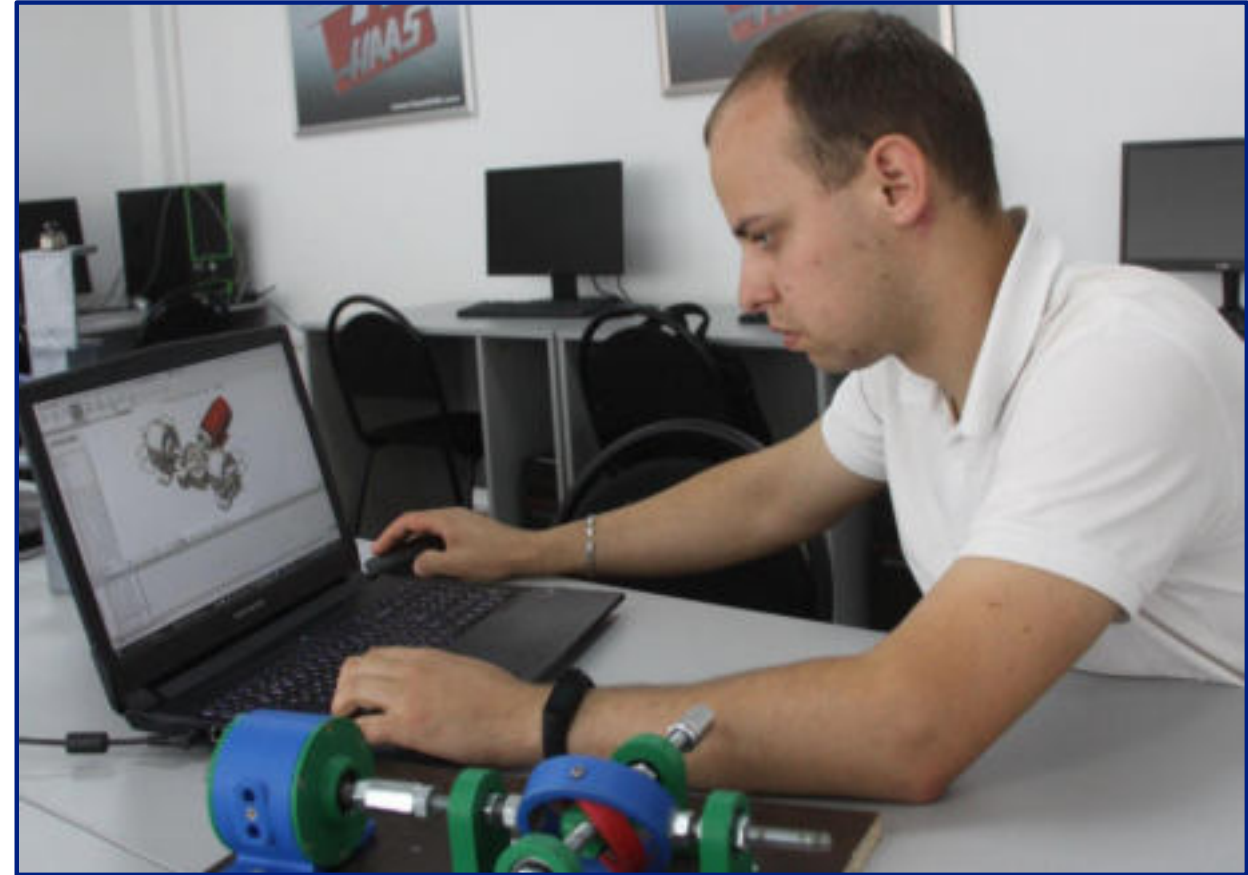

Твій крок у сучасне агро!

## Specialisms

- ✓ Applied Mechanics
- ✓ Industrial Engineering
- ✓ Material Science
- ✓ Electrical Energetics, Electrical Engineering and Electromechanics
- ✓ Architecture and Urban Planning
- ✓ Agro-engineering
- ✓ Civil Security
- ✓ Automobile Transport

## Faculty Laboratories

### Solar power station

A big roof solar electric power station was installed at Khmelnytskyi National University in 2018. This is **the first roof solar power station** in a state educational institution in Ukraine.

The roof solar power station allows the university to self-supply with electricity.

KhNU scientists have developed solar excess energy storage systems to supply the internal needs. The station is also used to study the efficiency of solar panels.

## Faculty Laboratories

### Training Laboratory of Agricultural Machinery of Elvorti Corporation

It is well-known that Ukraine is world's breadbasket, while in 2021 Khmelnytskyi region is listed **TOP 5** of the **major agricultural production regions of Ukraine**.

A training laboratory was opened in the framework of cooperation between KhNU and Elvorti company. Elvorti is a leading Ukrainian enterprise in the field of agricultural engineering. The company manufactures sowing, tillage and harvesting equipment for the agro-industrial complex.

## **SIEMENS Digital Training and Research Center for Automation and Electric Drives**

There is a modern educational-scientific center of automation systems and electric drives, where SIEMENS has implemented a large portfolio of equipment and software. That provides students with in-depth knowledge in the sphere of automation and robotization of process control systems, data collection and analysis and practical experience with modern equipment in various fields.

# Faculty of Economics and Management

# Faculty of Economics and Management

## Specialisms

- ✓ Economic Cybernetics
- ✓ Economics and Business Analytics
- ✓ HR-engineering in business economics
- ✓ Personnel Management and Labor Economics
- ✓ Economic Security
- ✓ Accounting and Taxation
- ✓ Financing, Banking and Insurance
- ✓ Marketing
- ✓ Business Administration
- ✓ Management Trade and Commercial Logistics
- ✓ Enterprise Economy
- ✓ Entrepreneurship

# Faculty of Information and Technology

# Faculty of Information and Technology

## Educational and Professional Programs

- ✓ Software Engineering
- ✓ Computer Sciences
- ✓ Computer Engineering
- ✓ Computer Engineering and Programming
- ✓ Programming protection of computer systems and networks
- ✓ Cyber Security
- ✓ Informational systems and technologies
- ✓ Automation and Computer-Integrated Technologies
- ✓ Telecommunications, Media Technologies and Intellectual Network
- ✓ Telecommunications and Radio Engineering
- ✓ Telecommunications and information and communication technologies
- ✓ Applied Mathematics

# Faculty of Management, Administration and Tourism

# Faculty of Health, Psychology, Physical Culture and Sports

## Educational and Professional Programs

- ✓ Secondary Education (Physical Education, Health)
- ✓ Physical Education and Sport
- ✓ Psychology
- ✓ Physical Therapy, Ergotherapy
- ✓ Ergotherapy

# Faculty of Health, Psychology, Physical Culture and Sports

## Faculty Laboratories

### Ergotherapy Laboratory

The laboratory was opened within the framework of the Erasmus + (KA 2) Capacity Building Projects in the Field of Higher Education with Ukrainian Partners.

The Ergotherapy Laboratory has been specially designed to help our students to gain practical experience. After graduation they will become ergotherapists and teach ergotherapy to children and adults with neurological disorders.

Sensory integration, gait analysis, neurological ergotherapy applications are taught in this laboratory.

# Faculty of Health, Psychology, Physical Culture and Sports

## Faculty Laboratories

### **Centre for Comprehensive Rehabilitation and Assistance to Soldiers 'Veteran Space'**

The centre provides:  
rehabilitation and accompanying measures for military veterans and active servicemen and members of their families through an integrated approach, including the following components: psychological, pedagogical, social, medical and legal.

# Psychological Centre, Laboratory of Medical and Psychological Research

Developed by the Laboratory, "E-PASS" (student's health e-passport) enables to quickly analyse the mental and physical health of a student, develop an individual program for self-care and conduct a dynamic monitoring of its implementation and effectiveness.

# International Students Department

## Educational programs in English:

- ✓ Management (bachelor);
- ✓ Management (master);
- ✓ Computer engineering (bachelor);
- ✓ International economic relations (bachelor).

- ✓ Preparatory Department  
for International Students

# Our Partners

Khmelnytskyi National University develops partnerships by signing bilateral agreements with foreign universities. International cooperation of Khmelnytskyi National University has more than 110 agreements with partner universities.

- California State University (USA)
- Institute Volt (USA)
- European University (Georgia)
- Vytautas Magnus University (Lithuania)
- Ataturk University (Turkey)
- Mendel University in BRNO (Czech Republic)
- University of Gdansk (Poland)
- John Paul II Catholic University of Lublin (Poland)
- Adam Mickiewicz University (Poland)
- Pedagogical University of Krakow(Poland)

# Cooperation with International Organisations and Associations

# SPORTS AND LEISURE FACILITIES, STUDENTS' LIFE

Student Fashion House | Culture and Arts Centre | Physical Education and Sports | Students' Council.
